[KVSRSOCPS/ACD/CIR/2019]

There is a seminar on “Recent Trends Towards Natural Products Research” for I B. Pharmacy students by Dr.N.Silvia , Professor, Shri Vishnu college of pharmacy, on 28-03-2019 at 11:00 am in our college seminar hall. The staff members who are concerned with this and interested can attend and make use of it.

Venue: Seminar Hall.

Academic Year: 2019-20

**PROGRAM REPORT**

One-day National Seminar on

**RECENT TRENDS TOWARDS NATURAL PRODUCT RESEARCH**

ORGANIZED BYs

**RESEARCH AND DEVELOPMENT CELL**

**Name of the event:** National Seminar on "Recent trends towards Natural Product Research"

**Dates:** 28-03-2019

**Resource person:**

Dr. N. Silvia,

Professor,

Department of Pharmaceutics,

Shri Vishnu College of Pharmacy,

Bhimavaram

Email id: [silvia@svcp.edu.in](mailto:silvia@svcp.edu.in)

Contact number: 9848252091

**Convenor:**

Dr. G. Devala Rao

**Number of students attended:** 30

**Venue:** KVSRSOCPS

**Objective of the program**

- To learn basics about isolation of phytoconstituents
- To understand about the characterization of phytoconstituents by spectroscopic techniques.
- To learn about the quantitative estimation of phytoconstituents from extracts

**Outcomes of the program**

Upon completion of this program, students have the following expertise:

- ❖ Gain knowledge on isolation techniques
- ❖ Interpretation of Spectroscopic data for structural elucidation
- ❖ Understand the principles and procedures involved in quantitative estimation of phytoconstituents.

## Recent trends towards Natural Product Research

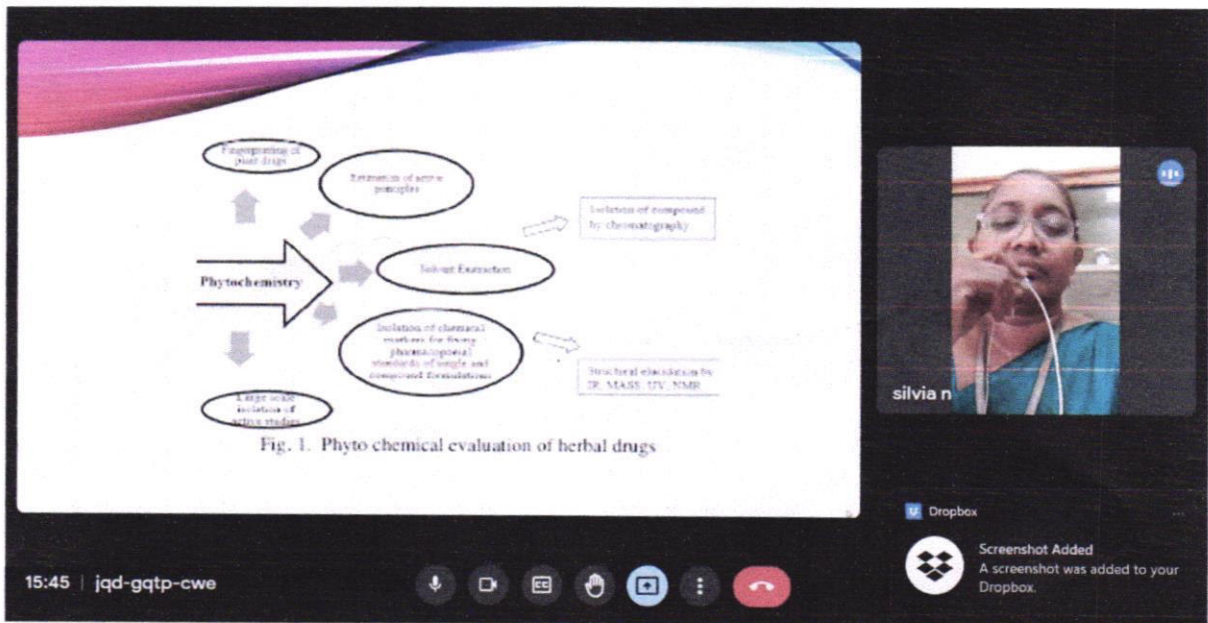

Dr. Silvia explored the knowledge regarding the advances in natural products. By employing bioactivity-directed fractionation and isolation, researchers have identified an array of essential bioactive compounds from nature. Drug discovery from medicinal plants. Life With the advancement of new bioassay methods, further exploration has been enabled. Many of the bioactive compounds found in plants have been utilized to create medicines, dietary supplements, and other useful commercial products. By making modifications to the active lead compounds, their biological effects can be amplified, and they can be readied for clinical trials. He summarize research on many different useful compounds isolated or developed from plants with emphasis placed on those recently discovered by the researchers laboratories as antitumor and anti-HIV clinical trial candidates.

## INTRODUCTION

Department of pharmaceutical chemistry had organised a National Seminar on 18-4-2019 titled '**Importance of Process Chemistry in Drug Research and Development.**' The seminar focussed on importance of process chemistry in drug discovery and development such as masterpieces in process chemistry, stages of process chemistry for the development of API, Process development of API, various reactors in plants, impurities in API, safety issues, waste handling etc.

## OBJECTIVES

The seminar will focus on issues of process chemistry in drug discovery and development such as

- Master pieces in process chemistry
- Stages of process chemistry for the development of API
- Process development of API
- Various reactors in plants
- Impurities in API
- Safety issues
- Waste handling

## PROGRAM REPORT

### A REPORT ON NATIONAL SEMINAR ON 'IMPORTANCE OF PROCESS CHEMISTRY IN DRUG RESEARCH AND DEVELOPMENT'

Organised by Department of Pharmaceutical Chemistry  
KVSR Siddhartha College of Pharmaceutical Sciences, Vijayawada-10  
**18<sup>th</sup> April, 2019**

Department of pharmaceutical chemistry had organised a National Seminar on 18-4-2019 titled '**Importance of Process Chemistry in Drug Research and Development.**' The seminar focussed on importance of process chemistry in drug discovery and development such as masterpieces in process chemistry, stages of process chemistry for the development of API, Process development of API, various reactors in plants, impurities in API, safety issues, waste handling etc. The target audience includes B. Pharm., M. Pharm., Pharm. D., Pharm. D(PB)., M. Sc, B. Sc, Research Scholars and Faculty Members.

The seminar inaugurated at 10.00 am in presence of Chief Guest **Dr. Y. K. Sundara Krishna**, Professor, Department of computer science, Krishna University, Machilipatnam, **Sri. Perla Bhima Rao**, Member of Convenor Committee, SAGTE, **Dr. G. Devala Rao**, Principal, KVSRSCOPS and **Dr. B. Anupama**, HoD, Department of Pharmaceutical Chemistry. Chief Guest had emphasized importance of computers in pharmacy field and role of pharmacist in development of softwares related to drug design and discovery process.

After inauguration, session -1 was started by **Dr. S. V. N. Raju**, Senior Vice-President, Aizant Drug Research Solutions Private Limited, Hyderabad. Director Sarudbhava Formulations Private Limited. Sir had delivered a talk on drug design and development, enriching students with the opportunities available for pharmacy students in industries including entrepreneurship.

Session -2 was hailed by **Dr. A. Sunil Kumar Reddy**, Research Scientist,

*[Handwritten signature]*

Department Of Chemical Research, Aurbindo Pharma Limited, R and D centre, Hyderabad. He delivered a talk on the topic entitled role of process chemistry in drug discovery and development program. Sir had emphasised the role of process chemist in drug discovery and development process. He also described the importance of identification and preparation of possible impurities in active pharmaceutical ingredient. Further, he described the possible sources of impurities in API with examples.

After lunch E-poster session and drawing competition were conducted and best E-poster and drawing were awarded with cash prizes (first prize- Rs500 and second prize Rs 300). Students and faculty from various colleges of Andhra Pradesh had participated the seminar. The total student participants and faculty members are approximately 250 and 50, respectively.

After the two sessions feed backs were collected from the students/faculty towards the seminar. Most of the participants appreciated in a positive manner that they learnt new concepts i.e. process chemistry which is useful for young pharmacy students who can pursue their career in industry/academic research.

Thanking you

Yours faithfully,

A SEMINAR ON  
GLOBAL PHARMACEUTICAL  
ENTREPREURSHIP DEVELOPMENT  
(4th february 2019)

**THE TRUE  
ENTREPRENEUR  
IS A DOER,  
NOT A DREAMER**

Sponsored by  
Siddhartha Academy of General  
and Technical Educations  
Vijayawada

**About College**

KOMMAREDDY VENKATA SADASIYA Siddhartha College of Pharmaceutical Sciences ( KVS R SCOPS ) was incepted during the academic year 1993-94 and it is the first private pharmacy college started in the state of Andhra Pradesh. The college is sponsored by Siddhartha Academy of General & Technical Education (SAGTE), Vijayawada. The College campus is located in the heart of Vijayawada city with all advanced amenities. KVS R SCOPS is committed to the education of pharmacists with highest ethical and professional standards. The college has excellent academic atmosphere, culture and discipline with the best infrastructural facilities such as state of the art building, laboratories, library facilities, student hostel for boys and girls, playground etc.

**About E-Cell**

Entrepreneurship Cell IS established in 2017.Entrepreneurship cell is a non-profit student's organization dedicated to promoting the spirit of entrepreneurship among students throughout India. The basic aim of E-Cell is to encourage college-level students today to start their own enterprise.

**About Seminar**

Entrepreneurship in the modern economic climate, entrepreneurship, or possessing entrepreneurial spirit, is critical for driving innovation and creating a prosperous society.

**Objective.** To review literature pertaining to entrepreneurship in pharmacy practice, education, and the knowledge, skills, and attitudes (KSAs) identified for pharmacist entrepreneurs.

## **A Brief Report of "Global Pharmaceutical Entrepreneurship Development"**

A Programme on "Global Pharmaceutical Entrepreneurship Development"

**Organized by**

**E-Cell**

**on**

***4<sup>th</sup> Feburvary, 2019.***

E-Cell organized a Entrepreneurship seminar The Resource Person is Sri.Venkatadri Bobba, CEO of Ventureast, Hyderabad 45 students actively participated.

Explained about Entrepreneurship In the modern economic climate, entrepreneurship, or possessing entrepreneurial spirit, is critical for driving innovation and creating a prosperous society. Its concepts have been embraced by the wider public in recent years, underlined by the success of the British Broadcasting Corporation's (BBC) television show "Dragon's Den," and the American equivalent "Shark Tank," where budding entrepreneurs pitch their business plans to well-known business people in the hope of securing investment. A Viewpoint by Brazeau in the American Journal of Pharmaceutical Education outlined the importance of nurturing entrepreneurial spirit in pharmacy undergraduates in order to advance future health care. She asked whether accreditation standards were too specific to promote intellectual curiosity and entrepreneurial spirit. Center for the Advancement of Pharmacy Education's (CAPE) Educational Outcomes outlines that, as part of personal and professional development, students should "engage in innovative activities by using creative thinking to envision better ways of accomplishing professional goals."Center for the Advancement of Pharmacy Education's (CAPE) Educational Outcomes outlines that, as part of personal and professional development, students should "engage in innovative activities by using creative thinking to envision better ways of accomplishing professional goals."

### PROGRAM REPORT

One day National Seminar on

### HOW TO WRITE A RESEARCH PUBLICATION EFFECTIVELY

Organized by

### RESEARCH AND DEVELOPMENT CELL

**Name of the event:** National Seminar on “How to Write a Research Publication Effectively”

**Dates:** 22-01-2019

**Resource person:**

Prof. Dr. Duraiswamy Dhachinamoorthi,

Principal

QIS College of Pharmacy, Ongole, Andhra Pradesh

Email id: [principal@qiscp.edu.in](mailto:principal@qiscp.edu.in) Contact number: 9347310439

**Convenor:**

Dr. G. Devala Rao

Principal, KVSRS SCOPS

Email id: [drgr1964@gmail.com](mailto:drgr1964@gmail.com) Contact number: 9848827872

**Number of students attended:** 34

**Venue:** KVSRS SCOPS

**Objective of the program:**

- To understand objectives of research
- To enhance research publication contents
- To facilitate effective scientific writing

**Outcomes of the program:**

After attending the seminar, students expertise in the following:

- Understood the objectives of research and learned how to write scientific content for publication effectively.

## ONE DAY NATIONAL SEMINAR ON

### “HOW TO WRITE A RESEARCH PUBLICATION EFFECTIVELY”

Prof. Dr. Duraiswamy Dhachinamoorthi highlighted that Good research is replicable, reproducible, and transparent. Replicability, reproducibility, and transparency are some of the most important features of research. The replicability of a research study is of significance as it allows other researchers to test the study's findings. A complete research paper in APA style that is reporting on experimental research will typically contain a Title page, Abstract, Introduction, Methods, Results, Discussion, and References sections. Many will also contain Figures and Tables and some will have an Appendix or Appendices. He emphasized to first introduce the topic including the problem which is being addressed, the importance of solving the problem, and known research and gaps in the knowledge.

## ABSTRACT OF SEMINAR

It aims to publish data on recent advances in early drug discovery against emerging/neglected tropical diseases, including parasitic, bacterial, viral, and fungal infections. Here we collect valuable insights related to the development of new experimental approaches, the identification of novel therapeutic strategies, and the mechanism of action of classical or novel antibacterial agents. Over the past 40 years, the complexity of drug development has multiplied, necessitating the preclinical stage of drug research, an investigational new drug (IND) application, and extensive clinical testing before FDA marketing clearance. Successful drug discovery is like finding a safe and effective oasis in a chemical and biological desert. Analyzes based on the drug development approach show that the discoverability of suitable candidates is highly sensitive to the validity of predictions, as deserts are large and oases are small. Especially since drug development is very difficult to measure late in the process before the project succeeds or fails.

A "druggable" target is identified, and drug screening begins in the drug discovery process resulting from Small-molecule. Molecules that can interact with the target and/or support the intended phenotypic response are found during drug screening.

Additionally, professional athletes occasionally utilize performance-enhancing medications like HGH and steroids, which can be found during a drug test. The treatment of complex diseases such as cancer, cardiovascular disease, diabetes, and neuropathy often justifies the use of drug combinations for therapeutic intervention. However, identifying successful drug cocktails is not a trivial task and is hampered by a lack of standardization in terminology, experimental protocols and models, and data analysis that followed in drug development.

**Name of the Program** : One-day Seminar on "Mentoring on Patent Filing Process"

**Date/Duration** : 17/08/2018/2 hrs

**Name of the Resource Person** : Dr. Bharatam V Prasad

**No. of participants** : 61

**Program Objective** : The main objective of the seminar is to give mentoring on patent filing procedures, IP Protection & Commercialization and to provide a deep understanding of the subject by bringing together experts in the field of patents and students of pharmacy

**Topics Covered** : Mentoring on Patent Filing, Indian Patent Act, Drafting, different forms of submission

**Program Outcome** : The outcome of this seminar is the ability of students to understand patent filing, drafting procedures, agreements and forms to be submitted according to the existing patent filing procedures nationally and internationally.

## INTRODUCTION

Seminar on July 10<sup>th</sup> 2018 to make the pharmacy professionals aware about the importance of Drug Design, Drug Development ,Drug Analysis in Pharmaceutical Research.

**DRUG DESIGN:** It is the intensive process of finding new medications based on the knowledge of a biological target.

**DRUG DEVELOPMENT:** It is the process of bringing a new drug molecule into clinical practice.

**DRUG ANALYSIS:** It includes the aspects of identifying novel drugs, assessing their affinity and specificity, characterizing their molecular structure and testing their efficiency in vitro and in vivo.

## OBJECTIVES OF THE SEMINAR

Objectives of the seminar is

1. To development and validation of analytical methods play important roles in the discovery, development, and manufacture of pharmaceuticals.
2. Method development is the process of proving that an analytical technique is acceptable for use to measure the concentration of an active pharmaceutical ingredient (API) in a particular compound dosage form.
3. The validation of analytical method is essential for its development, whereby it is extensively tested for specificity, linearity, accuracy, precision, range, limit of detection, limit of quantitation, and robustness.
4. The present review highlights the process of drug development, its phases, and analytical methods, including chromatographic, spectroscopic, and electrochemical techniques, which have been applied in the analysis of pharmaceuticals.

## PROGRAM REPORT

The Department of R&D, KVSR Siddhartha College of Pharmaceutical Sciences (KVSRSCOPS), Vijayawada, Organized seminar in the College seminar hall to spread awareness on drug design, drug development, drug analysis. The chief guest for this celebration was Sri.V. Krishna Kishore. He delivered a talk on to development and validation of analytical methods play important roles in the discovery, development, and manufacture of pharmaceuticals. . Method development is the process of proving that an analytical technique is acceptable for use to measure the concentration of an active pharmaceutical ingredient (API) in a particular compound dosage form. The validation of analytical method is essential for its development, whereby it is extensively tested for specificity, linearity, accuracy, precision, range, limit of detection, limit of quantitation, and robustness.

This programme was chaired by the principal Dr.G. Devala Rao. He stated that every pharmacist should aware about the importance of Drug Design, Drug Development, Drug Analysis. This programme is arranged by R&D Department , under the leader ship of Dr.A. Bharathi Programme Co-Ordinator .Nearly 80 students and 10 faculties were attended to the program.

A handwritten signature in green ink, appearing to be "G. Devala Rao".

PHARMACEUTICAL SCIENCES  
VIJAYAWADA-520 010

## PROGRAMME OUTCOMES

- Discuss the General Concepts of drug design, drug development, drug analysis
- Explain the scope of New drug molecules.
- Tell the duties and responsibilities of pharmacist in the drug discovery and design.
- Discuss the discovery and design involves synthesis of new drug molecules.
