Design Expert: The software offers a wide range of analytical and graphical techniques for model fitting and interpretation. In the analysis of 2-level Factorial designs, extensive use is made of Normal probability plots to highlight any active factors - i.e. factors that affect the response.

Duolingo Software: It is a free app to support students with language lessons and track their progress which can help them to stay motivated. The platform enables students to read, write, listen and speak languages *via* online lessons on a unified interface.
