POLICY DOCUMENT ON ENVIRONMENT AND ENERGY USAGE

The Environment and Energy Usage Policy of KVSr Siddhartha College of Pharmaceutical Sciences is to manage in such a way that its environmental impact is minimised. The policy implies that renewable energy resources should be explored in order to reduce the government's burden and to find alternative resources as solutions to the energy crisis.

This environment and energy policy is binding on all components of the institution and is applicable to all stakeholders through institutional wise activities. It will assist us in incorporating efficiency and environmental awareness into daily activities, allowing us to recognise responsibilities and commitment to natural resource conservation and utilisation. Green literacy programmes are held on a regular basis at the college level in order to save energy and to protect the environment.

Policies:

- ✦ To assess our energy consumption and its environmental impact
- ✦ To calculate the amount of CO₂ emitted by our mode of transportation vehicles
- ✦ To reduce local air pollution by using eco-friendly vehicles such as bicycles, public transportation, and pedestrian-friendly streets.
- ✦ To install photovoltaic solar panels for alternative energy generation
- ✦ To save energy, LED bulbs are installed.
- ✦ To develop a system for waste management
- ✦ To construct a rainwater harvesting unit
- ✦ To launch a tree-planting campaign for continuous improvement in energy consumption

- ✦ Engage with government agencies, the municipal corporation, and the affiliating university, as well as actively work with local organizations on environmental, energy efficiency, and sustainable development issues.
- ✦ To keep an eye on emerging environmental and energy issues.
- ✦ To improve our own environmental performance, by creating awareness among stake holders.
- ✦ To provide information and training on energy-saving measures.
- ✦ To provide opportunities for employees and students to participate in environmental initiatives.
- ✦ Every year, we train our employees and students to plant trees.

This policy will be communicated to students and employees through internal channels. The principal will review the environment, energy policy, and objectives on a regular basis.
