INTERNAL QUALITY ASSURANCE CELL

In pursuance of its Action Plan for performance evaluation, assessment and accreditation and quality up-gradation of institutions of higher education, the National Assessment and Accreditation Council (NAAC), Bangalore proposes that every accredited institution should establish an Internal Quality Assurance Cell (IQAC) as a post-accreditation quality sustenance measure. Since quality enhancement is a continuous process, the IQAC will become a part of the institution's system and work towards realization of the goals of quality enhancement and sustenance.

The prime task of the IQAC is to develop a system for conscious, consistent and catalytic improvement in the overall performance of institutions. In view of the national educational reforms, legislative enactments, the UGC/MHRD directives and the challenges put forth by globalization, KVSRSOPS actively engages itself in the development and implementation of quality benchmarks in all its key performance areas.

The IQAC functions to assure institutional accountability with probity to all the stakeholders, funding agencies in particular and society as a whole.

- To develop a system for conscious, consistent and catalytic action to improve the academic and administrative performance of all units of the institution.
- To set quality benchmarks for all units and evolve mechanisms for monitoring and ensuring performance in accordance with them.
- To evolve and implement strategies for self-evaluation to sensitize all functionaries to be accountable for student and stakeholder satisfaction.
- To take steps for the periodic internal academic audit of the teaching-learning and research activities of all departments/faculties and institutes
- To ensure in-service continuing education and training of all functionaries for enriching the intellectual capital and professional competence of the Institution.
- To collaborate with other reputed academic institutions and agencies globally for improvement of quality and brand image of Institution.
