CAREER OBJECTIVE:

To be associated with a progressive organisation that gives scope to apply my knowledge and skills and to be a part of the team that dynamically works towards the growth of the organisation.

ACADEMIC PROJECT :

Title: Glycyrrhizic based cosmeceutical Face Sheet Mask.

Description: Glycyrrhizic Acid was directly extracted from liquorice powder. The obtained glycyrrhizic acid was subjected to centrifugation to separate the solid and liquid and the liquid was used for further process. The key component has UV protection and anti acne properties. Honey used for its skin glowing and moisturizing properties and the Perfume oil was added additionally to the formulation. Then it was subjected to Evaluation parameters i.e., skin permeability and toxicity studies. When the face sheet mask was applied on the skin, forms a layer which helps in protecting from UV light and it ruptures the walls of bacteria leading to the cell death which causes anti acne. Skin permeability was conducted on the goat skin maintaining the human body temperature.
